sites shewn on plan,
not specified above,
to be given to
Miscellaneous Classes.

The above allot-
-ment of sites has
been made with due
care after consulting
the wants and
convenience of each
Class of people.

It is proposed
in consideration of
the

the wants of Malnad
(where 6 months'
necessaries including
firewood, are to
be stored for the
monsoons) to fix
the dimensions of
each building site
at 40 ft. (frontage) by
120 ft. This may
appear a large
allowance, but it
is not too large
Considering the sub-
- houses & Hittal they
would

would want.

To secure decent frontages, it will be necessary to lay down that all houses on the main roads should be tiled structures with at least 6ft. Veranda

The houses on sites marked 12 on the plan should have particularly good frontages & should be given to people able to [illegible]

up such frontages.

To encourage building in a new and rising town like Kalimu-Katte, it is necessary to offer some facilities to intending builders. With this view, it is proposed to dispose of building sites at an upset valuation without selling them by open competition.

The sites will be divided

divided into three classes as follows.-

The sites on the Shemoga Kallur-Katte main road up to where the new square is to be formed and from the latter point up to 31st mile stone on the Nagar road, to be charged at Rs 8/ per site.

The new rows of house sites on the plain opposite the

Taluk Kacheri
to junction with the
Nagar road, to be
charged at Rs 6 per
site.

All other sites to
be charged at Rs 2
per site.

Government ser-
vants who elect
to build houses
here may get house
sites free. I would
recommend that
some concession
may

may be made to
them in the
matter of building
timber.- It is esti-
-mated that the
number of sites re-
-quired for them
would be between
60 & 80 as follows:

1 Amildar
1 Sheristedar
1 Inspector
1 Jemadar
15 Revenue Munshis,
Gumashas, Shroffs &c.
20 Revenue Defedars,
Peons, Sayer Holkars
20 Police Defedars &
Constables

20 For other
ments - viz - D.P.W,

I would Venture
to suggest that as
in Mudigere Taluk

-ings may be erected

For the making
of a square and
the opening out of
the road AB, the
following houses
will have to be
taken up, other
sites being given
to them in ex-
- change.

- ment

Sir,

I have the honor to state that owing to the destruction of almost the whole village of Kallikatte by fire, it has become necessary to propose some alterations in the Plans of the village Sanctioned in Government order No 5843-6/177 dated 23rd August 1890.

In Para 5 of the Memorandum accompanying the Government order quoted above the Sites from the new Square up to the point B as marked on the plan, Copy Submitted herewith, is set apart for Lingayets. Till now not a single house is built on the Spot by the people of that caste, and on enquiry I learn that there is no chance of

To be kindly returned as early as possible.

of the people of that caste alone occupying the whole Sites on both Sides of the road. They are situat-ed close to the Village, and other caste people, such as Walka-ligars, Mohomedans &c apply for them. I am quite sure that there will not be so many Lingayet applicants as to build on both Sides of the road. I would therefore recommend that the Sites on the left Side of the road marked A. B. as you go from the Square, be given to other caste people, reserving those on the right for the Lingayets.

This may be done. The same facts were shown & some back.

Entd/ A. R. Mdl

2. Another question which I would like to bring to the notice of Government is that the people apply for Sites throughout the Village free of cost. The whole Village Site is set-apart for building purposes at the Survey

Survey Settlement, and the Government have not spent anything in acquiring them. As it is intended to improve the village, I think granting of building sites free of cost would be a wise measure. The rates fixed for these sites are Rs. 8. 6. 0 or 4-0-0 and I think the loss to Government will be very little by granting the sites free. I would therefore request that you will kindly obtain Sanction of Government to grant the site free. Some restriction such as that persons obtaining sites free should build within a year may be imposed in granting this concession. — Unless this is done I do not think there is any chance of improving this village.

Sir,

In reply to para 3 of Govt. order No. 15177/334 dated 27th March 1892, received with your No. 2817 dated 31st Idem on the subject of granting building sites reserved for Linyayets in the village of Kalûr Katte to their caste people, I have the honor to state that in all 36 sites have been reserved for this class on both sides of the road marked A.B. on the plan. up to this not a single Linyayet has come forward to take up sites in this square - Three persons, a Jangee and two Mahamadans whose houses have to be acquired for improving the main roads have applied

question. The Amildars report shows that Lingayets of the village object to the sites in the Square being given to non-Vegetarians. So far as my opinion is concerned I see no objection to give sites to non-Vegetarians just on the side opposite to that, now recommended to be reserved for Lingayets. There are very few Lingayets in the village, and these few have already built houses in a better locality. If at all, Lingayets from outside should come and build on the new sites, and I think there is very little chance of this coming to pass. | Better Ground sometime -

Order thereon

In the above, it is reported that in all 36 sites have been reserved for Lingayets on both sides of the road marked A.B on the plan and that the Lingayets of the village of Kullur-Katte

Kullurkatte object to the grant to non-Vegetarian Hindus, of any of the sites set apart for their sect. Sir,

I have the honor to state that the Amildar of the Nagar Taluk reports that ale the Revenue Peons decline to build houses on the sites set apart for them between 2d. and 3d. furlongs 31st mile in the new town of Kalurkatte, on the ground that the site in question is far away from the inhabited portion of the town. I enquired into the matter on the spot, and came to know that only 10 or 12 peons including Dafedars remain permanently at the Head Quarters, while the others are employed in the interior of the Taluk with the Shekdars and other officials. The former Conservancy

5 | Very
their number being few and as they
are often required to leave their homes
to go out with the Amildar, their
families are not safe in a distant
place selected for their houses. It —
appears from the previous Correspondence
that the site in question was selected
for the peons on the belief that the
town will very soon be extended so far.
But from what I observe, I have every
reason to believe that there is no —
chance of the town being improved to
such an extent as to connect the
peons' quarters with the other portion
for another decade or so. In the meantime
I consider, it is a real hardship
that these poor people should be —
compelled to live far away from the
inhabited portion of the Town. They
apply for the sites referred to in Govt.
Pro. No. 1193 & 303 92, of 21st July 1892

reserved for the Europeans. The Govt. however are averse to give these sites to non-Vegetarians I cannot help but reiterate my opinion, that there is not the least likelihood of either the Europeans or other Vegetarian Natives building on these sites. I encouraged such people residing in the surrounding villages to come and settle at Kalinkatte and build on these sites, but without any success. In a small mahnad village like Kalinkatte it is almost impossible to expect a number of families of the same caste to build their houses in a given locality. I have observed in the Towns of Nagar, Sagar, Sorab ~~&c~~ the people of different castes living in houses close by one another. To insist that each caste should build in a given locality in a place like Kalinkatte will only retard the improvement, which if otherwise will be effected within a reasonable time

Moreover the sites selected for the pecons is over two furlongs from the Taluk Kachen, and it is considered a long distance in a thinly populated Malnad village. I would therefore take the liberty of submitting the question for the reconsideration of Government and recommend the giving out of some of the sites in question to non-vegetarians, particularly to these pecons

1/2/94

the Government in its Proceedings No 5843-6/177 dated 23d August/90 in Sanctioning certain proposals for the extension of the Kalurkatte Down has ordered that the Revenue Peons Should build their own houses, and that they are to be granted Sites and wood free of cost for the purpose. In pursuance of this order, permission has been granted to them to take wood with a given time from Government jungles, but they now plead their inability to build owing to poverty. It is hardly necessary for me to say

that living in Malnad is very costly and that it is next to impossible for those poorly paid Servants to save any thing to lay out on house — properly, almost all the peons are the inhabitants of adjoining villages, and the houses which they build at — Kalurkatte will be of no use for them, when they cease to hold their present places. I would therefore recommend that a line of huts for 15 men might be run for the use of these Peons, as the Government have done in the Case of Police Peons.

2 These huts need be as costly as Police lines. A couple of rooms with mud walls, jungle wood materials and Country tiles will answer the purpose in my opinion very well
